SVTS B Series

Faston Slip Rings

IP 65

POWER & SIGNALS

The most compact solution with fibre brush technology.

Thanks to the multiple contact points, the faston B Series Slip Rings ensures longer life due to the low contact wear rates, while guaranteeing low contact resistance.

Specially designed for intensive use at high speed and for transmitting power and sensitive signals, like the thermocouple ones, these rotary joints are particularly suitable for use on flowpack packaging machines ensuring a compact and reliable solution; the use of faston type connectors avoids the use of welds that may affect the reading of thermocouple signals.

Moreover, the IP65 version makes it washable, guaranteeing protection against low pressure jets if watered from all directions.

Benefits

Electrical power & signals in one unit

Compact

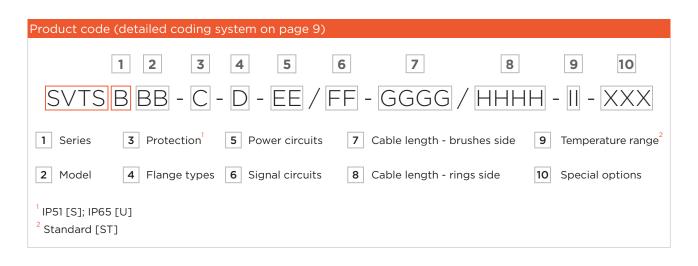

Long lifetime

Easy connection (Faston connectors)

Cost-effective

Water resistant (IP65)*

*Optional

Main applications

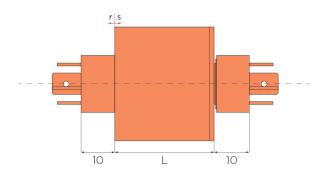

Flowpack machines	Converting
Hose & cable reels	Wind turbines
Medical / pharmaceutical	
Packaging	
Process control	
Rotating tables	

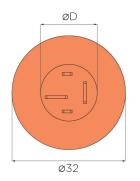

Features

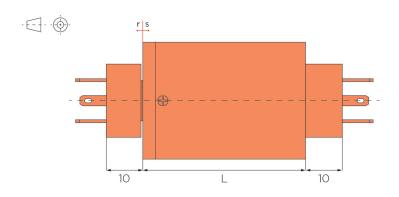

Current	SRC032: 400 VAC / 400 VDC power circuits SRC 045: 400 VAC / 400 VDC
Dielectric voltage strenth	500 VAC @ 60 Hz @ 60 sec
Insulation resistance	$> 1000~{ m M}\Omega$ $/~500~{ m VDC}$
Dynamic contact resistance	< 10 mΩ
Nominal speed	400 rpm (higher speeds, up to 600 rpm, upon request)
Bearings	High-precision stainless steel ball bearings
Housing	ABS (hard plastic)
Contact	Gold-gold (alloy)
Temperature	-20°C to +80°C
Protection	IP51; IP65*
Expected lifetime	10 ⁸ revolutions (depending on speed, environmental conditions and size)
